Chairs

Foot fetish 1 'Outrageously original, stylish and incredibly comfortable': such is the verdict of Rare Basics on its latest product, which it claims is the ultimate in designer seating – The Stiletto Chair.

The Stiletto Chair is tailor-made to individual specifications and finished in a variety of exciting fabrics, from the 'ever-popular' animal prints, and fashionable denim, to the 'opulence of sumptuous velvet'.

Standing at only 94cms high and compliant with British Fire Standards, the Stiletto Chair, say its makers, is destined to be a 'fun talking point' wherever it appears. The best point here, however, is the obvious one: unlike its spiky-heeled inspiration, the chair definitely won't make your feet ache.
