

027 Rare Basic

The illusion of light, glamour and glitz is created in the multiple reflections of Rare Basic's Reflective collection of glass mirror brilliance bricks. All six surfaces are mirrored, allowing the bricks to be used individually or grouped into infinite different shapes and designs. They are ideal for displaying shoes, bags, jewellery, china and glass. The blocks are offered in two sizes - 100mm x 100mm x 100mm, and especially for shoes, 150mm x 100mm x 300mm.
